

RESOLUTION 2.1

AMENDMENTS TO THE ANNEXES TO THE AGREEMENT

Recalling the Final Act of the negotiation meeting to adopt the Agreement on the Conservation of African-Eurasian Migratory Waterbirds, held in The Hague, the Netherlands, in June 1995, inviting the interim secretariat to prepare amendments to the Action Plan with regard to species or families listed in Annex 2 of the Agreement,

Recalling Resolution 1.9, adopted at the first Meeting of the Parties in Cape Town, South Africa in November 1999, which amended the Action Plan and requested the Secretariat and/or Technical Committee, *inter alia*:

- (a) To consider addition of species, as specified in the resolution, to the Agreement and Action Plan;
- (b) To review current data on population status;
- (c) To stimulate the preparation of single species action plans,

Recalling article X of the Agreement concerning the procedures to amend the Action Plan and its Annexes,

Convinced that urgent actions are needed for many species not yet included in the Action Plan as adopted at the final negotiating meeting (The Hague, June 1995), and to regularly update the Action Plan,

Having reviewed document AEWA/MOP2.9, entitled "Proposed Amendments to the Action Plan", and *having taken note* of the proposed changes to Annex 2 of the Agreement and Table 1 of the Action Plan, which include the following:

(a) A full update of the conservation status of the species currently listed in the Action Plan, as presented in Table 1a of document AEWA/MOP2.9;

(b) The inclusion of an additional 11 species and their population status, as specified in Table 1b of AEWA/MOP2.9, in Annex 2 of the Agreement and Table 1 of the Action Plan;

(c) The inclusion, as requested in Resolution 1.9, of an additional six species, as specified in AEWA/MOP2.9 Table 1c, in Annex 2 of the Agreement and Table 1 of the Action Plan;

(d) The inclusion, following the specifications in Table 1d of AEWA/MOP2.9, of a further 48 species of waterbirds to Annex 2 of the Agreement and Table 1 of the Action Plan, and the inclusion of an additional 16 migratory populations of 12 species already listed in Annex 2 of the Agreement, to Table 1 of the Action Plan;

(e) The amendment of the conservation status of the populations of 38 species as proposed in an informal working document "Further amendments to Table 1 of Action Plan" presented to the Meeting by Wetlands International,

Noting the established international process for updating and revision of population estimates and 1 per cent thresholds for waterbirds established by the Ramsar Convention on Wetlands of International Importance especially as Wildfowl Habitat, which envisages an update of Wetlands International's *Waterbird Population Estimates* being prepared, following international scientific review and consultation, for each triennial Ramsar Conference of the Parties,

Aware of the considerable practical difficulties that are caused when the timing of the AEWA Meeting of the Parties precedes the publication and endorsement of *Waterbird Population Estimates* by the Ramsar Conventions,

Considering that the supporting review by AEWA of the status of waterbird populations in the Agreement area would benefit from the inclusion of additional analytical content, inter alia, patterns of changing conservation status by geographic area, by taxonomic and ecological groupings, and by other themes, in particular to act as a high level summary for decision makers and so as to inform directly the revision of the Agreement's implementation priorities,

The Meeting of the Parties:

1. *Agrees* to include an additional 65 species in Annex 2 of the Agreement as appended to the present Resolution, comprising 11 species as specified in Table 1b of AEWA/MOP2.9, six species as specified in Table 1c of AEWA/MOP2.9, and 48 species as specified in Table 1d of AEWA/MOP2.9;
2. *Adopts* the revised version of Table 1 of the Action Plan as appended to the present Resolution, to replace the current Table 1 of the Action Plan, as previously amended by Resolution 1.9;
3. *Requests* the Secretariat to monitor the implementation of the amendments and to stimulate the preparation of single- and multi- species action plans for those species identified as having an unfavourable conservation status;
4. *Noting* apparent declines in the North-west European and Northern European/West Mediterranean populations of *Anas platyrhynchos*, the North-west European population of *Anas acuta*, and the Baltic, Denmark and Netherlands population of *Somateria mollissima*, determines to retain existing categorizations for these populations in Table 1 of the Action Plan, and *calls upon* the Technical Committee, working with Wetlands International and other experts, as a matter of priority, to review further the status of these four populations in the light of additional information, and to report their findings to the Meeting of the Parties at its third session;
5. *Encourages* Parties to consider, where appropriate, the development and implementation of international multi-species action plans for populations of two or more species listed in column A of Table 1 when those populations share the same habitat (ecosystem), are exposed to similar threats, and require similar measures for their conservation. Priority shall be given to those groups of species which include two or more populations in category 1 in column A of Table 1. Populations of species listed in column B of Table 1 may be included in these action plans if they interact with other species in the group and require similar conservation measures;
6. *Requests* the Technical Committee of the Agreement, in close cooperation with the Agreement Secretariat and in close consultation with the relevant bodies of the Convention on Migratory Species, to review further development of the Agreement by including additional species of wetland birds and species traditionally considered to be seabirds, looking in the first instance at the species listed in Table 2 and Table 3 of AEWA/MOP2.9, expanding Table 3 to species from the whole of Africa, and considering, in particular, the extent to which the existing Action Plan is adequate in its scope to address differing conservation problems faced by birds of prey, passerines and other taxonomic groups using wetlands;
7. *Calls upon* the Technical Committee of the Agreement to develop guidelines for the interpretation of the term "significant long-term decline" in the context of Table 1 of the Action Plan;
8. *Further calls upon* the Technical Committee of the Agreement to provide clarification on the procedures used to delimit bio-geographical populations of waterbirds, noting their significance as practical units for conservation management;
9. *Takes note* of the second edition of the *Report on the Conservation Status of Migratory Waterbirds in the Agreement Area* (AEWA/Inf.2.14) as the current best available knowledge of the status of populations of waterbirds included in the Agreement;
10. *Requests* the Technical Committee to develop, at its next meeting, proposals for enhancing the analytical content of the third edition of the *AEWA Report on the Conservation Status of Migratory Waterbirds in the Agreement Area*, and to consider how that information may be used to direct input to future reviews of the Agreement's implementation priorities;

11. *Takes note also* of the *Report on the Population Status of Lymnocyptes minimus* (AEWA/Inf.2.12), which contains an evaluation of the current data and information on the species;
12. *Calls upon* all Parties to provide the necessary resources to undertake, on an international level, priority actions such as the drafting of single- and multi-species action plans where most needed on the basis of the amended Action Plan;
13. *Requests* the Secretariat to liaise with the Ramsar Convention Bureau to endeavour to ensure that in future the timing of the AEWA Meeting of the Parties follows the Ramsar Conference of the Parties, thus facilitating the review of waterbird population estimates by AEWA and further encouraging a globally coordinated and effective process for the review of waterbird population estimates;
14. *Urges* those countries with waterbird monitoring schemes not supplying data to the International Waterbird Census, to encourage the provision of a regular supply of such information as a matter of priority in order that International Waterbird Census outputs may be based on the most complete assessments possible.

STATUS OF THE POPULATIONS OF MIGRATORY WATERBIRDS

KEY TO CLASSIFICATION

The following key to Table 1 is a basis for implementation of the Action Plan:

Column A

Category 1:

- (a) Species, which are included in Appendix I to the Convention on the Conservation Migratory species of Wild Animals
- (b) Species, which are listed as threatened in Threatened Birds of the World (BirdLife International 2000); or
- (c) Populations, which number less than around 10,000 individuals.

Category 2: Populations numbering between around 10,000 and around 25,000 individuals.

Category 3.: Populations numbering between around 25,000 and around 100,000 individuals and considered to be at risk as a result of:

- (a) Concentration onto a small number of sites at any stage of their annual cycle;
- (b) Dependence on a habitat type, which is under severe threat;
- (c) Showing significant long-term decline; or
- (d) Showing extreme fluctuations in population size or trend.

For species listed in categories 2 and 3 above, see paragraph 2.1.1 of the Action Plan contained in Annex 3 to the Agreement.

Column B

Category 1: Populations numbering between around 25,000 and around 100,000 individuals and which do not fulfil the conditions in respect of column A, as described above.

Category 2: Populations numbering more than around 100,000 individuals and considered to be in need of special attention as a result of:

- (a) Concentration onto a small number of sites at any stage of their annual cycle;
- (b) Dependence on a habitat type, which is under severe threat;
- (c) Showing significant long-term decline; or
- (d) Showing extreme fluctuations in population size or trend.

Column C

Category 1: Populations numbering more than around 100,000 individuals which could significantly benefit from international cooperation and which do not fulfil the conditions in respect of either column A or column B, above.

^{a/} Table 1, "Status of the populations of migratory waterbirds" forms part of the Action Plan contained in Annex 3 to the Agreement.

REVIEW OF TABLE 1

The Table shall be:

- (a) Reviewed regularly by the Technical Committee in accordance with article VII, paragraph 3(b), of the Agreement; and
- (b) Amended as necessary by the Meeting of the Parties, in accordance with article VI, paragraph 9(d) of the Agreement, in light of the conclusions of such reviews.

DEFINITION OF GEOGRAPHICAL TERMS USED IN RANGE DESCRIPTIONS

North Africa	Algeria, Egypt, the Libyan Arab Jamahiriya, Morocco, Tunisia.
West Africa	Benin, Burkina Faso, Cameroon, Chad, Côte d'Ivoire, the Gambia, Ghana, Guinea, Guinea-Bissau, Liberia, Mali, Mauritania, Niger, Nigeria, Senegal, Sierra Leone, Togo.
Eastern Africa	Burundi, Djibouti, Eritrea, Ethiopia, Kenya, Rwanda, Somalia, Sudan, Uganda, the United Republic of Tanzania.
North-east Africa	Djibouti, Egypt, Eritrea, Ethiopia, Somalia, Sudan.
Southern Africa	Angola, Botswana, Lesotho, Malawi, Mozambique, Namibia, South Africa, Swaziland, Zambia, Zimbabwe.
Central Africa	Cameroon, Central African Republic, Congo, Democratic Republic of the Congo, Equatorial Guinea, Gabon, Sao Tome and Principe.
Sub-Saharan Africa	All African states south of the Sahara.
Tropical Africa	Sub-Saharan Africa excluding Lesotho, Namibia, South Africa and Swaziland.
Western Palearctic	As defined in <i>Handbook of the Birds of Europe, the Middle East and North Africa</i> (Cramp & Simmons 1977).
North-west Europe	Belgium, Denmark, Finland, France, Germany, Iceland, Ireland, Luxembourg, the Netherlands, Norway, Sweden, the United Kingdom of Great Britain and Northern Ireland.
Western Europe	North-west Europe with Portugal and Spain.
North-east Europe	The northern part of the Russian Federation west of the Urals.
Eastern Europe	Belarus, the Russian Federation west of the Urals, Ukraine.
Central Europe	Austria, the Czech Republic, Estonia, Germany, Hungary, Latvia, Liechtenstein, Lithuania, Poland, the Russian Federation around the Gulf of Finland and Kaliningrad, Slovakia, Switzerland.
North Atlantic	Faroese, Greenland, Iceland, Ireland, Norway, the north-west coast of the Russian Federation, Svalbard, the United Kingdom of Great Britain and Northern Ireland.
East Atlantic	Atlantic seaboard of Europe and North Africa from northern Norway to Morocco.
Western Siberia	The Russian Federation east of the Urals to the Yenisey River and south to the Kazakhstan border.

Central Siberia	The Russian Federation from the Yenisey River to the eastern boundary of the Taimyr Peninsula and south to the Altai Mountains.
West Mediterranean	Algeria, France, Italy, Malta, Monaco, Morocco, Portugal, San Marino, Spain, Tunisia.
East Mediterranean	Albania, Bosnia and Herzegovina, Croatia, Cyprus, Egypt, Greece, Israel, Lebanon, the Libyan Arab Jamahiriya, Slovenia, the Syrian Arab Republic, The Former Yugoslav Republic of Macedonia, Turkey, Yugoslavia.
Black Sea	Armenia, Bulgaria, Georgia, Republic of Moldova, Romania, the Russian Federation, Turkey, Ukraine.
Caspian	Azerbaijan, Iran (Islamic Republic of), Kazakhstan, the Russian Federation, Turkmenistan, Uzbekistan.
South-west Asia	Bahrain, Iran (Islamic Republic of), Iraq, Israel, Jordan, Kazakhstan, Kuwait, Lebanon, Oman, Qatar, Saudi Arabia, the Syrian Arab Republic, eastern Turkey, Turkmenistan, the United Arab Emirates, Uzbekistan, Yemen.
Western Asia	Western parts of the Russian Federation east of the Urals and the Caspian countries.
Central Asia	Afghanistan, Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, Uzbekistan.
Southern Asia	Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, Sri Lanka.

KEY TO ABBREVIATIONS AND SYMBOLS

bre:	breeding	win:	wintering
N:	Northern	E:	Eastern
S:	Southern	W:	Western
NE:	North-eastern	NW:	North-western
SE:	South-eastern	SW:	South-western

() : Population status unknown. Conservation status estimated.

*: By way of exception for those populations marked by an asterisk, hunting may continue on a sustainable use basis where hunting of such populations is a long-established cultural practice (see paragraph 2.1.1 of Annex 3 to the Agreement).

NOTES

1. The population data used to compile Table 1 as far as possible correspond to the number of individuals in the potential breeding stock in the Agreement area. The status is based on the best available published population estimates.
2. Suffixes (bre) or (win) in population listings are solely aids to population identification. They do not indicate seasonal restrictions to actions in respect of these populations under the Agreement and Action Plan.
3. The brief descriptions used to identify the populations are based on the descriptions used in the third edition of *Waterbird Population Estimates*.
4. Slash signs (/) are used to separate breeding areas from wintering areas.

5. Where a species' population is listed in Table 1 with multiple categorisations, the obligations of the Action Plan relate to the strictest category listed.
